## Offsite material

The image shows a webpage from a library system. The section highlighted indicates that offsite material is available under the following options:

### Request from off-site

You can request an item that is stored offsite. This option allows you to have the item sent to you via email, currently free of charge.

### Have an item scanned and sent to you via E-mail

You can also request an item to be scanned and sent to you via email. This service is currently free of charge.

The table lists several journal titles with their respective issue years and locations (Closed Stack). Each entry has a 'Request' and an 'OffsiteScan' button, indicating the options available for accessing offsite material.
Making a stack or Offsitescan request

1. Find your item. If a journal, scroll through the list of available volumes/issues

2. Fill out details of delivery location and click ‘Send Request’

What is an ORCID number?

- An ORCID number provides researchers with a way to unambiguously identify themselves.
- Each researcher is given a unique, persistent (and free!) ORCID number when they set up a profile.
- ORCID @ Oxford allows you to add Oxford University affiliation.
- The number can be attached to Publications, Datasets, Grants.
- Make sure you get credited for your work!
